

**African Reinsurance Corporation  
Société Africaine de Réassurance**

## **Together with our Host Countries in the Fight against Covid -19**

**Lagos, Nigeria, 08 April 2020**

Dear Partners,

As some of the host countries of our 6 regional offices, 2 contact offices and 2 subsidiaries have issued 'stay-at-home' orders, we wish to inform all our customers, partners and stakeholders that Africa Re is still fully operational thanks to our robust IT capabilities and existing Business Continuity Plan which has been triggered.

Although some of our offices will only run skeletal services at this trying period, we will continue to serve you via all available channels of communication, including E-mails and Mobile Phones.

Africa Re will continue to act in accordance with the directives of each host country and the World Health Organization (WHO). We pledge to work closely with our partners to contribute to the fight against the pandemic.

We value your well-being and treasure the trust you have in us as your reinsurance partner. Please be assured that we are committed to serving you and delivering on our mandate.

Africa Re will keep monitoring events and will issue updates when necessary.

Thank you for your understanding.

**Dr. Corneille KAREKEZI**

**Group Managing Director/Chief Executive Officer**
